

# P10

[00:02]

Interviewer: Hi. Before we begin this interview, please read the following documents before deciding whether to take part in the study and take as much time as you need. Once you're ready, I would like to ask you to verbally confirm that you have read the following documents and consent to participate in this interview.

[00:15]

Participant X: I've read the documents and consent to participate in this interview.

[00:19]

Interviewer: Thank you for consenting. So, for this interview, you will complete a small number of short tasks using an AI system. For each task, you will have a short conversation with the AI, interact normally and naturally with the AI as you normally would. You will complete this alone, without the help of me. Please click the link below to access the task list and interact with the AI chatbot. You may interact with the chatbot for as long as you feel necessary,

[00:42]

Interviewer: Once you're done, I will ask you a couple of questions about your interaction. There are no correct or incorrect answers and you're not being tested for any task. End the conversation by clearly stating your final decision or opinion. For example, I trust this advice. Or I don't trust this advice.

[01:05]

Interviewer: Please click the link on the iPad given to access the task list in the AI system. You can copy, paste the given prompt statements and carry on with each task. If you have any questions, feel free to let me know and once you have completed all five tasks also let me know.

[01:20]

Participant X: I'm done interacting with the chatbot and I wish to continue the interview.

[01:24]

Interviewer: Perfect. I'll go ahead and ask you some questions regarding your interactions and this interview will not take you more than two minutes. It's a series of 12 questions. I'm going to give you a statement and I want you to tell me whether you strongly disagree, disagree, feel neutral, agree, or strongly agree with the statement given.

Interviewer: I found the AI chatbot easy to interact with.

[01:47]

Participant X: I strongly agree.

[01:48]

Interviewer: trust the information provided by the AI chatbot.

Participant X: Agree

Interviewer: The responses provided by the AI chatbot were accurate.

Participant X: I agree

Interviewer: I felt confident relying on the AI chatbot during the task.

Participant X: I agree

Interviewer: the AI chatbots behaved in a fair and unbiased manner.

[02:05]

Participant X: Agree.

[02:06]

Interviewer: I would consider using this AI chatbot for academic purposes in the future.

Participant X: Agree

Interviewer: the AI chatbot met my expectations and it as an academic assistance tool.

Participant X: I agree.

Interviewer: For the next couple of questions, I want you to let me know which one of these you feel you agree with. If there are any other things you would like to say that aren't within the options stated.

[02:25]

Interviewer: Feel free to say them and add on as well. The options given are just there to help you with the ideas.

Interviewer: What factors influenced your level of trust in the AI chatbot? Is it the accuracy of responses, clarity of explanation, speed of responses, transparency, ethical or bias concerns or something else?

[02:45]

Participant X: The clarity of explanations, speed of response, transparency, explanation provided

[02:53]

Interviewer: What aspects of the AI chatbot did you find most useful? Was it explaining academic concepts, answering questions quickly, generating ideas, structuring academic responses, or did you not find it useful?

[03:03]

Participant X: All of the above. So explaining academic concepts, answering questions quickly, generating ideas, and structuring affirmative responses.

[03:11]

Interviewer: What factors reduced your trust in the AI chatbot, If any? Was it incorrect or misleading answers, lack of sources, overconfident responses, ethical or bias concerns, or did nothing reduce your trust?

[03:23]

Participant X: Nothing reduced my trust.

[03:25]

Interviewer: How did interacting with AI chatbot affect your confidence in using AI for academic work? Did it increase your confidence, reduce your confidence, or did it have no change?

[03:35]

Participant X: It increased my confidence.

[03:37]

Interviewer: How could the AI chatbot be improved to better support users? Is it improved accuracy, clear explanations, source citations, greater transparency, ethical safeguards, or something else?

[03:49]

Participant X: Improved accuracy and greater transparency

[03:53]

Interviewer: If you have any additional comments about your experience with AI, let me know.

[04:00]

Participant X: It was very easy to use and easygoing.

[04:02]

Interviewer: Thank you so much for partaking in this interview, your participation is greatly appreciated.
